

get ready to farm!

tractor

Modern tractors are used for many jobs on the farm... Ploughing & tilling fields ready for sowing seed - they sow the seed too! Spreading fertiliser to help crops grow, pulling trailers, baling hay and many more tasks too.

COLOUR IT IN OR DON'T - IT LOOKS GREAT EITHER WAY!

1 Draw a tractor shape on a piece of cereal box - then cut it out.

2 Flip it over

3 Trace it onto another piece of cereal box & cut it out

4 Cut out a long piece of card - use the whole length of the cereal box!

5 Now it's time to mark where to fold the long rectangle. Start at one end and rotate your car shape marking where each corner touches the long strip of card.

6 Using a ruler or edge of a table - crease the card where you have marked

7 Push Magic Corners on both of your tractor shapes like we have here...

8 Now carefully slot it all together and you're ready to farm!

GET CREATIVE WITH CEREAL BOXES!

Included in this pack are 10 of our Magic Corners taken from our activity book. They're really good for making things from cereal box card. Once you get going you'll think of loads more cool stuff to make!

USE AGAIN AND AGAIN!
