What's on

Basketball

Wuma Sports

Wuma Sports are an independent basketball coaching provider based in North London. They provide basketball coaching to children from the age of 7-16, through holiday camps and schools' programmes.

Wuma is not just a basketball camp, as the camps feature enrichment sessions covering topics such as personal finance, nutrition and workshops related to the business of basketball. They also have a variety of guest speakers, such as current/ex professional basketball players and coaches or other individuals who can provide valuable educational insight to campers.

This past summer holidays, Wuma ran their first basketball camp in conjunction with the BACE HAF programme, where they were able to offer funded places for children within the Borough eligible for free school meals. The camp received a lot of positive feedback from their campers which is valued highly.

We cannot wait to return for the Winter BACE scheme and hope to see many of our summer campers again!

The holiday camps typically run from Monday to Thursday during school holidays, which focus on learning the fundamentals of basketball, and implementing these skills in the game's sessions

in the afternoon. Their camps cater to children of all abilities and all the coaches are experienced in delivering sessions to boys and girls of all ages and abilities.

HOLLYWOOD BOWL

Kindness Day UK was set up in 2010 and is celebrated across the UK every year. This day aims to increase the value of kindness in society as well as increase the amount of kind acts that take place nationwide, making kindness a greater part day to day life. (kindnessuk.com, 2023) Mark Twain

Antibullying Week, 13 – 17 November 2023

This Anti-Bullying Week let's come together to have discussions about what bullying means to us, how banter can turn into something more hurtful, and what we can do to stop bullying. Together, we can make a difference and take a stand against bullying. From the playground to Parliament, and from our phones to our homes, let's make a noise about bullying. Disability History Month 16 November – 16 December 2023

This Autumn 2023 UK Disability History Month (UKDHM) focusses on the Experience of Disablement amongst children and young people in the past, now and what is needed for the future. Christmas Jumper Day - 7 December 2023

Christmas Jumper Day is Save the Children's annual event which raises money for the children who need it most. Hanukkah/Chanukah, 7 – 15 December 2023

Chanukah (also spelled Hanukkah) is an 8-day Jewish festival marking the miraculous victory of the Maccabees, Jewish freedom fighters, over the Seleucidian Greek occupiers in the year 139 BCE. After recapturing Jerusalem's Holy Temple, which had been converted into a place of idol worship, they searched for pure oil with which to light the Temple menorah. They found just enough to burn for one day, but miraculously it burned for eight days until more oil could be brought. (Chabad.org,2023)

Winter Solstice

1. The magic moment

While many focus on the winter solstice as a day in the calendar, what we are actually talking about is a very specific moment which is over almost as soon as it has begun. The solstice marks the point at which the Sun is exactly overhead the Tropic of Capricorn, which this year will happen on Wednesday, 21 December at 21:48 GMT.

2. The Sun stands still

Like many other astronomical terms, the word solstice comes from Latin. Owing to the Sun appearing to 'standstill' in the sky when it reaches the Tropic of Capricorn, the word solstitium was used which in turn is composed of the word's sol (meaning 'sun') and sistere (meaning to 'standstill').

3. Winter begins

As well as marking the shortest day of the year, the winter solstice marks the first day of winter in the astronomical calendar, whilst in the meteorological calendar, we are already three weeks into winter.

4. Nine hours darker

You're probably aware that the day of the winter solstice marks the shortest day of the year, but did you know that it's almost nine

hours shorter than the longest day of the year? The summer solstice in June is just short of 16 hours and 38 minutes long, while on the day of the winter solstice the length of the day is a mere 7 hours and 50 minutes.

5. The earliest sunset

Logically you'd expect the earliest sunset to fall on the shortest day, but the earliest sunset occurs a few days earlier in the calendar and it's all to do with our clocks not quite mirroring the Earth's orbit. True solar noon, the point at which the Sun reaches its highest point in the sky, occurs around 10 minutes earlier than when our clocks strike 1200, and it is this discrepancy that means the sunset also arrives a little later the solstice.

6. Solstice and Christmas

Amongst the many festivals that centre around the solstices and equinoxes, the Scandinavian festival of Jul has some rituals that are probably more familiar than you think. Perhaps more familiar to us as Yule, the 12-day festival centred around the solstice has given birth to many of our most familiar Christmas traditions including the Christmas tree, the Yule log and the Christmas wreath. BACE Volunteer, 46 Female

"I liked everything about my volunteering experience especially being with the children. It was a very positive and inclusive experience all joining in together." In three words our volunteer described their experience as "Rewarding, positive, enjoyable".

GET ON TRACK! BMX

BACE Holidays is working with the Whyte Bros, a team of Olympic medalists for Great Britain who now offer BMX cycling sessions for young people aged 8+.

These sessions are tailored to a skill range or a rock up and ride session where young people are given the opportunity to enjoy riding with progressive challenges. The WhyteBros promote a healthy lifestyle and teach imperative life skills by taking young people out of their comfort zone, teaching resilience, communication and building confidence all whilst exercising in a safe environment.

Summer 2023, the Whyte Bros worked within our BACE holidays Park Days in the community. Their team noticed a massive improvement in our returning young people and were impressed by the turn out and some children trying BMX biking for the first time. Some young people who started off the sessions nervous and a little shaky on the bike, left, confident and happy, taking with them the new skills and techniques learnt within the sessions.

The Whyte Bros will be back this Winter BACE with more sessions. They urge any young children that are interested in cycling or want to try a new sport and challenge themselves, to get involved. Young people can bring their own bike or use one of the BMX bikes provided.

The young people who attended the Hollywood Bowl Sessions were bowled over. We are therefore offering another opportunity for young people to access a free game and a meal.. There was feedback from those who attended saying they would have felt more comfortable if they had the opportunity to bring a friend.

Therefore, for the first time each young person booking a ticket to Hollywood Bowl with BACE, can also bring along a friend. Young people will be supervised by a member of staff, but the sessions are led by the YP who will select a team captain. Get ready to strike up some festive fun with two games of bowling, mouthwatering nachos served right at your lane, a delicious meal after the game, and your choice of drink! Immerse yourself in the holiday spirit as you challenge your companions to a thrilling game of bowling. With two games included, there's plenty of time to showcase your skills, share laughter, and create unforgettable memories together. How can BACE Holidays support children with Special Educational Needs and Disabilities (SEND)?

BACE Holidays is an inclusive provision which means spaces are made available for children with and without disabilities that are in receipt of benefit-related free school meals. We have three types of provision for SEND children, and the type of provision you choose to access will be dependent on what you believe is most suited to your child's needs and abilities.

- Mainstream provision which children of mixed abilities will play alongside one another.
- Exclusive SEND Activities, specifically for children whose needs are better met within a specialist or target provision.
- Family SEND provisions whereas these are parent and child sessions.

Mainstream BACE provisions

Often the children with SEND don't need 1:1 support within the BACE programme. However, we understand each child is unique and therefore so are their needs. If you believe your child needs the support of a 1:1 support worker and you have funding via Short Breaks or Direct Payments, you are able to send 1:1 support along with your child to camp. All adults (1:1's) will need to provide a DBS on arrival.

NEW!

Following the Department for Education guidance and to support as many SEND children as possible, each child can ONLY receive up to 4 hours of 1:1 support under the BACE Holidays programme – subject to availability.

NEW!

If your child requires 1:1 support parents will need to contact **BACEHolidays@barnet.gov.uk** by **Friday 15 December 2023** in writing. Any requests after this date may not receive support.

If additional hours are needed these hours will need to be self-funded or paid via any payment contributions that you receive for your child.

If you have funding but do not have access to 1:1 support staff you can contact the providers below who have on offer experienced support staff, support and activities for children and young people with SEND.

Wellbeing, Welfare and Support

Protecting your child's health starts with vaccination

Make sure your child is up to date with their MMR vaccine.

Protect your child against Mumps, Measles and Rubella (MMR) and prevent potentially serious illness by contacting their GP practice to book their first MMR vaccine appointment.

Measles is more than just a rash, with 1 in 5 children needing a hospital visit.

Currently we are seeing an increase in measles cases circulating in neighbouring London boroughs, so now is a good time to check that your child's MMR vaccination - which not only protects your child against measles but also mumps and rubella - is up to date.

Only 72% of under 5s in Barnet are fully vaccinated against it which is well below the World Health Organisations target of 95% needed to prevent an outbreak.

Measles is a highly contagious disease and can lead to complications such as ear infections, pneumonia, and inflammation of the brain which require hospitalisation and on rare occasions can lead to long term disability or death.

"Vaccines are crucial to protect against many infectious diseases. There are many diseases that we are worried are starting to emerge again like whooping cough, mumps or measles.

Prevention is better than cure, and the childhood immunisations vaccination programme is effective at protecting against these diseases." - Dr Ilozue, GP, Brunswick Park Medical Practice

Protect your family against possible serious illness and avoid self-isolation.

Vaccination is the best protection. Check your child's red book and contact their GP to make sure they are up to date on their routine vaccinations. For more information visit:
